

Technological progress for the period
January 27, 2020 to April 2, 2020

This week we will tell you what has been added to the web version of the Roobee platform, what was amended, and on what elements of the platform the work has been started.

Here is a small part of the development work done lately:

A risk profiling section has been added to the Roobee platform (web version).

In order to correctly determine the risk sentiment an investment risk profiling must be carried out.

This can be done through completing the test on the Roobee platform. The investment profiling process aims to provide the answers to three main questions:

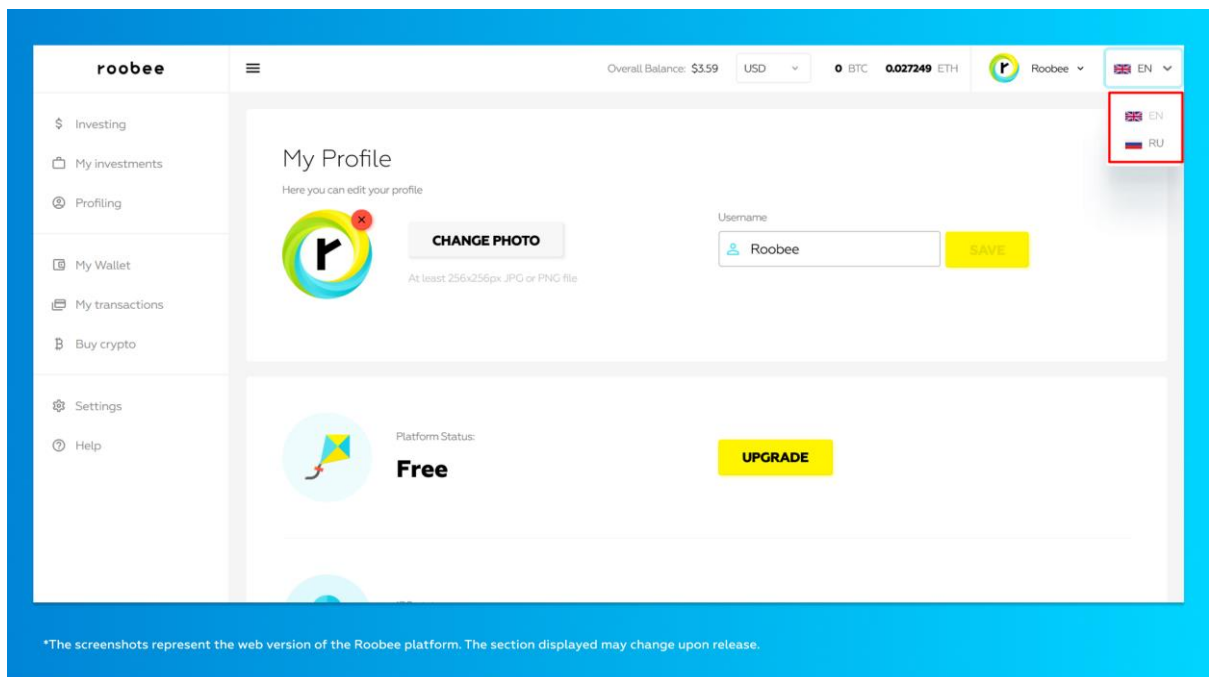

- Investment horizon suitable for you.
- Degree of your personal involvement in the investment process.
- Acceptable risk level for the investment portfolio.

At this stage the risk profiling process consists of 10 questions. You can see some of them on the screenshot below.

A work on full russification of the Roobee platform has been started.

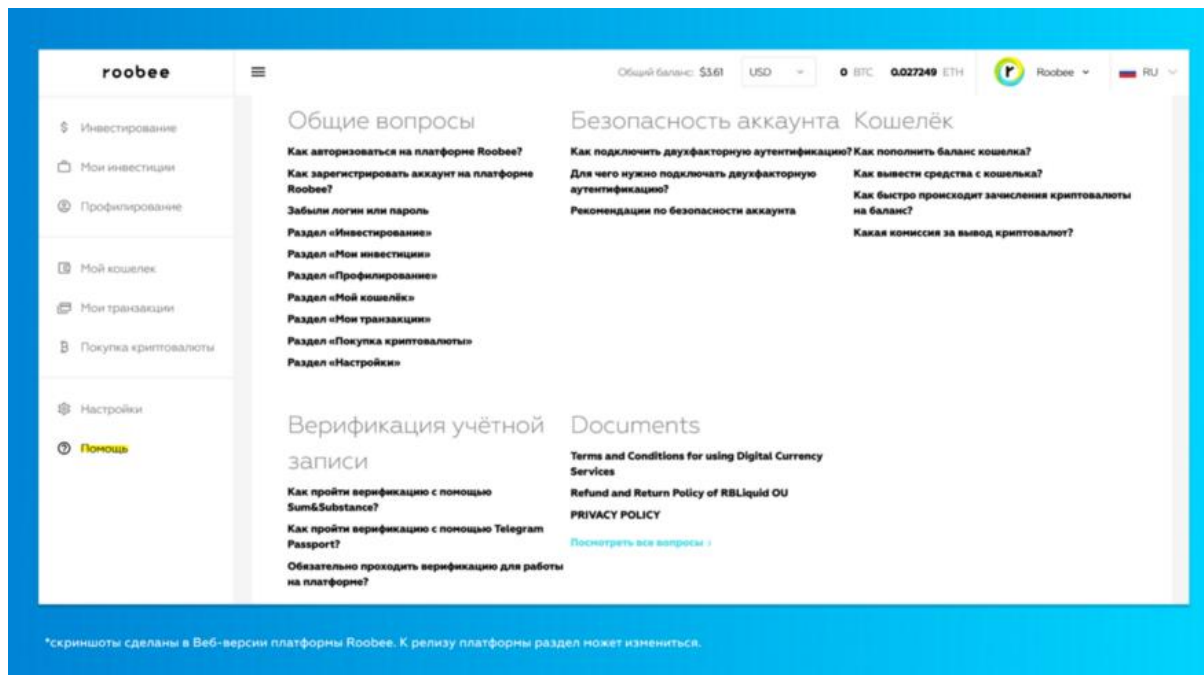

Languages supported on the Roobee platform:

- Russian
- English

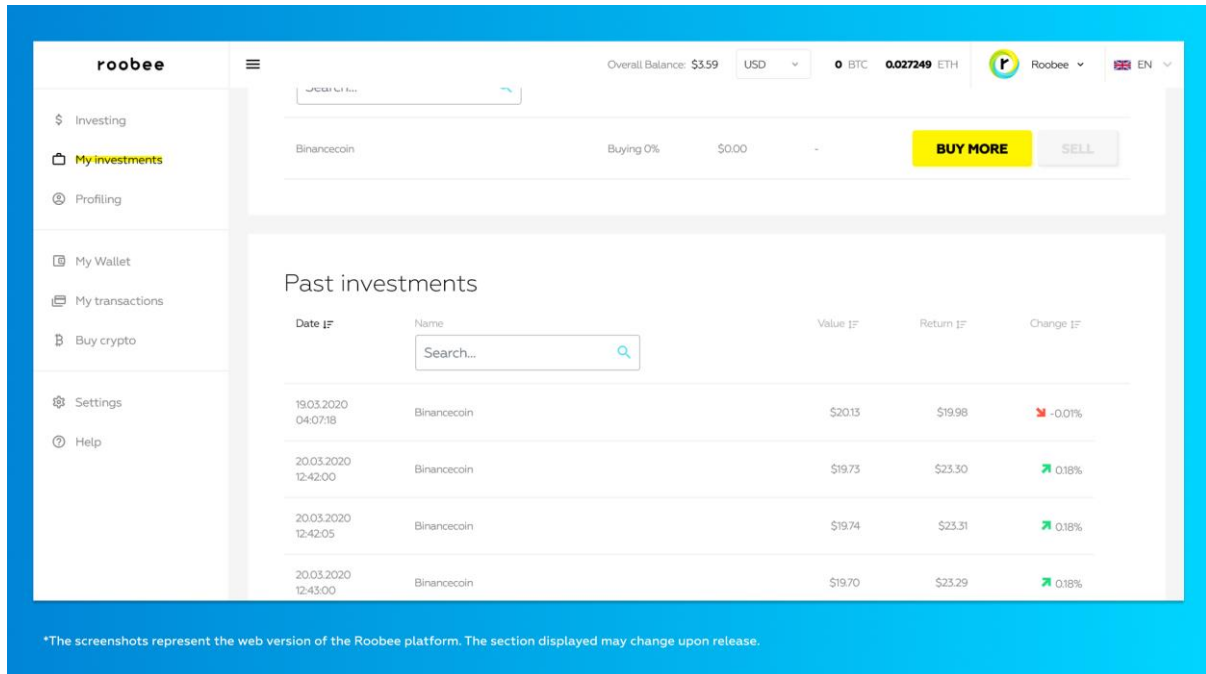

FAQ section on the Roobee platform is being elaborated.

The Help section has been integrated to answer the most popular questions that users of the Roobee platform may have.

My Investments section has been updated.

Now, the My Investments section shows:

- The statistics on all investments;
- Graph;
- Transactions;
- And other information for more convenient tracking of the portfolio and previous investments.

A purchase of the asset representing an investment product has been tested. A portfolio has been formed a few times, consisting of crypto assets:

- BNB cryptocurrency;
- Link cryptocurrency.

All the transactions performed as a payment for the purchases to the portfolio can be seen on blockchain, in the Kovan network.

Here is the link to the transaction:

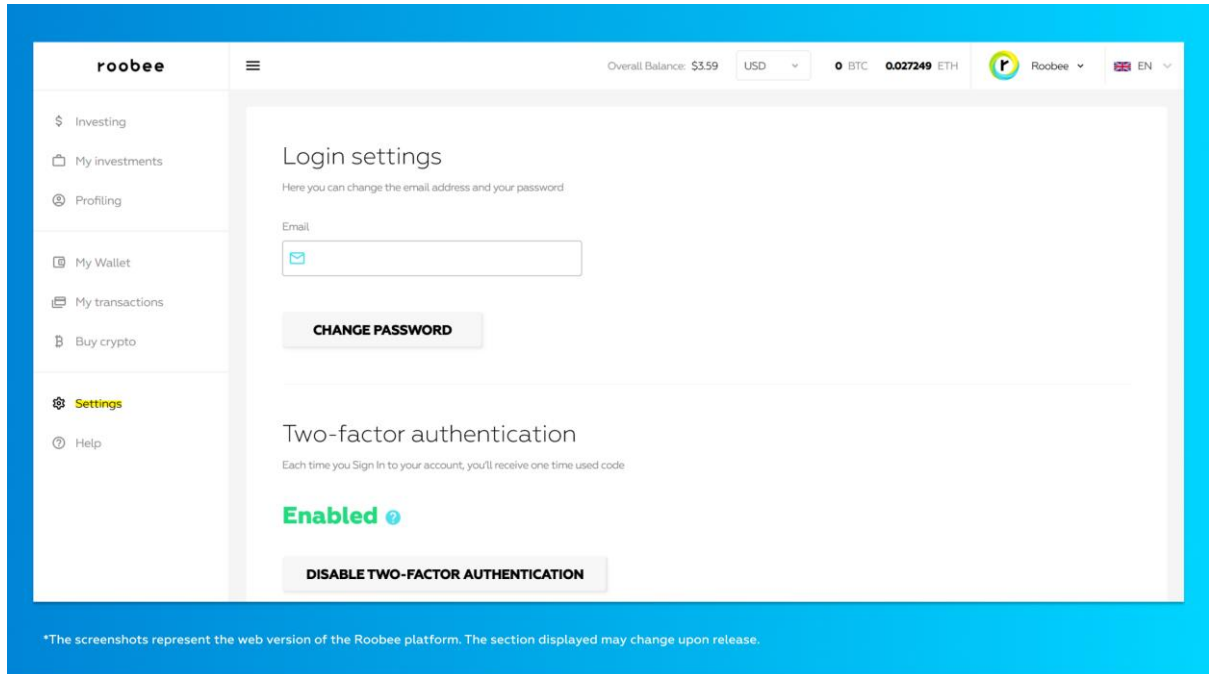

<https://kovan.etherscan.io/address/0x623dbc1ce7f0971f8b9dbcd5b8c8743e367c3ebe#tokentxns>

Screenshot of transactions:

A possibility to turn on the 2FA on the Roobee platform has been added, for additional security of your account.

In the Settings section you can link Google Authenticator to your account. The detailed instruction can be found in the Help section :)

And here is briefly about other improvements in the Roobee platform (web version):

- A procedure for connecting new investment products providers to the Roobee platform has been reworked. This will allow to add investment products to the Roobee platform more quickly.
- A possibility to build an investment portfolio consisting of investment products from various markets has been added. For example, stocks and cryptocurrencies.
- Ready-made portfolios consisting of crypto assets have been added.
- An internal admin panel of the Roobee platform has been developed.
- Other minor improvements on the platform.
- A field for entering the registration code on the Roobee platform has been added.

You can keep track of the updates on Roobee social networks.
