

Technological progress for the period
September 24, 2019 — October 10, 2019

Over the past two weeks, the Roobee team has focused on developing a web version and the mobile Roobee app.

From the previous development report, you learned that the mobile application was submitted for the first release on Google Play. Soon it will come out and be available for testing by the focus group.

What you will learn from today's report:

- technical process over the past two weeks;
- Fixed bugs on the Roobee platform;
- current development focus

Technological progress during 24.09.2019–09.10.2019

Web-version:

- The authorization method to the API KYC-provider Sum & Substance was changed

 POWERED BY
SUM & SUBSTANCE

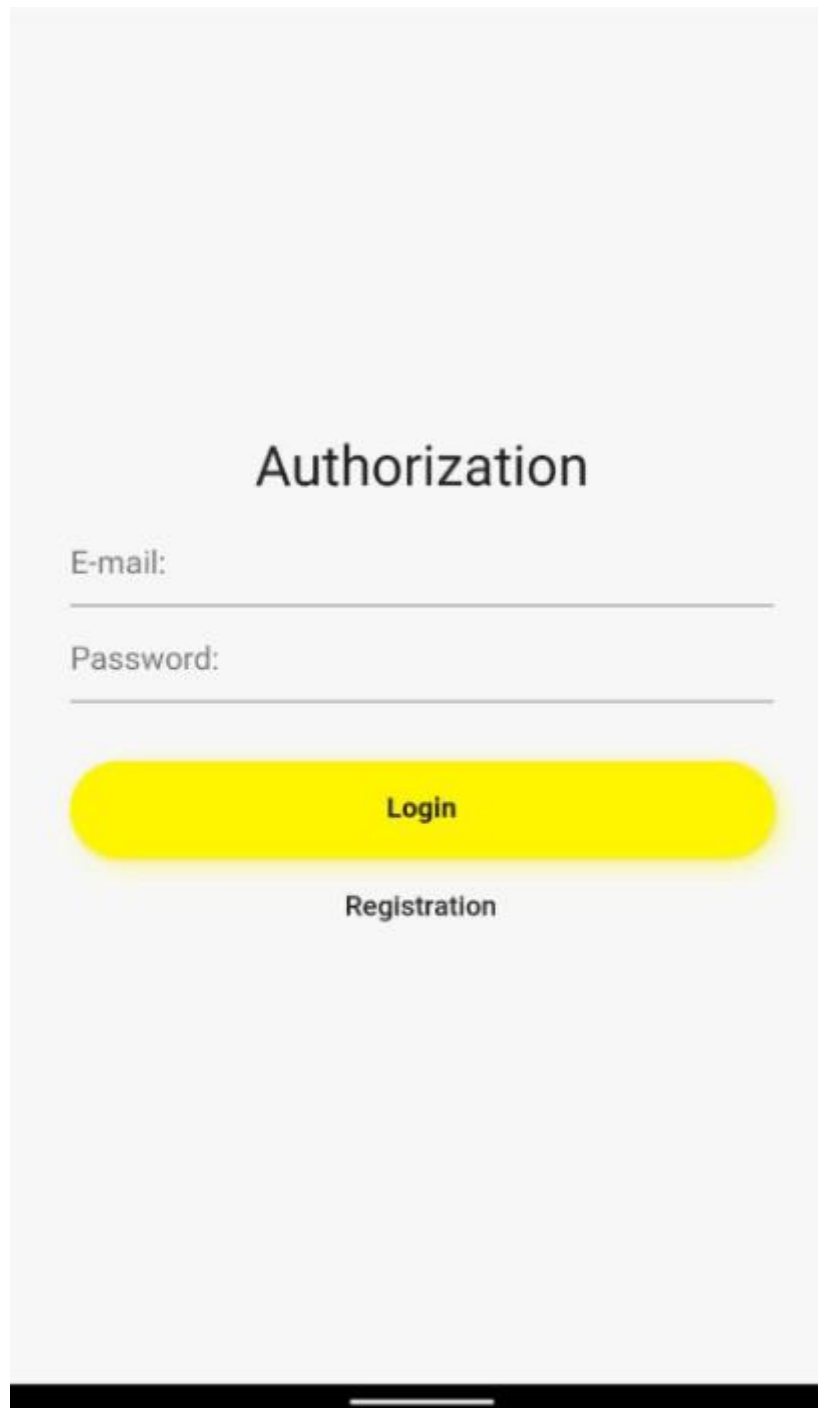

- 2fa was implemented. Now you can enable Google authenticator in settings

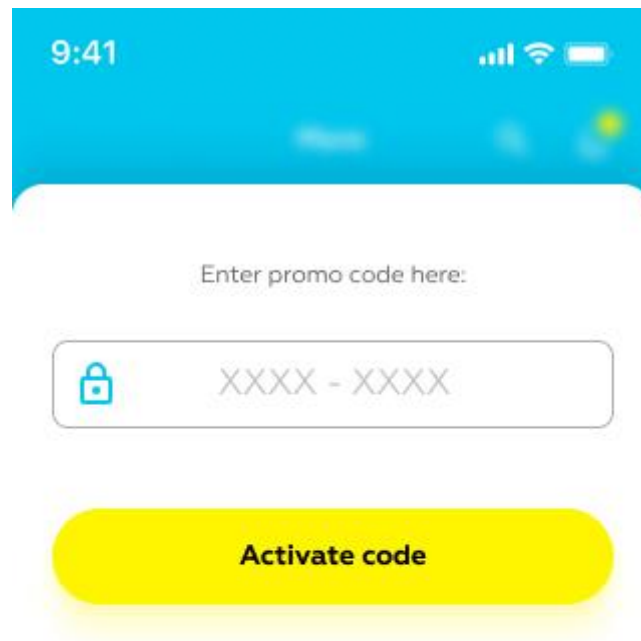

- The code coverage with autotests was made
- Log collection setup was implemented
- Server monitoring setup was accomplished as well as zabbix, etc.
- Bug fixes and testing
- Other minor amendments

Mobile version:

- An authorization to the mobile app using your biometric data was implemented.

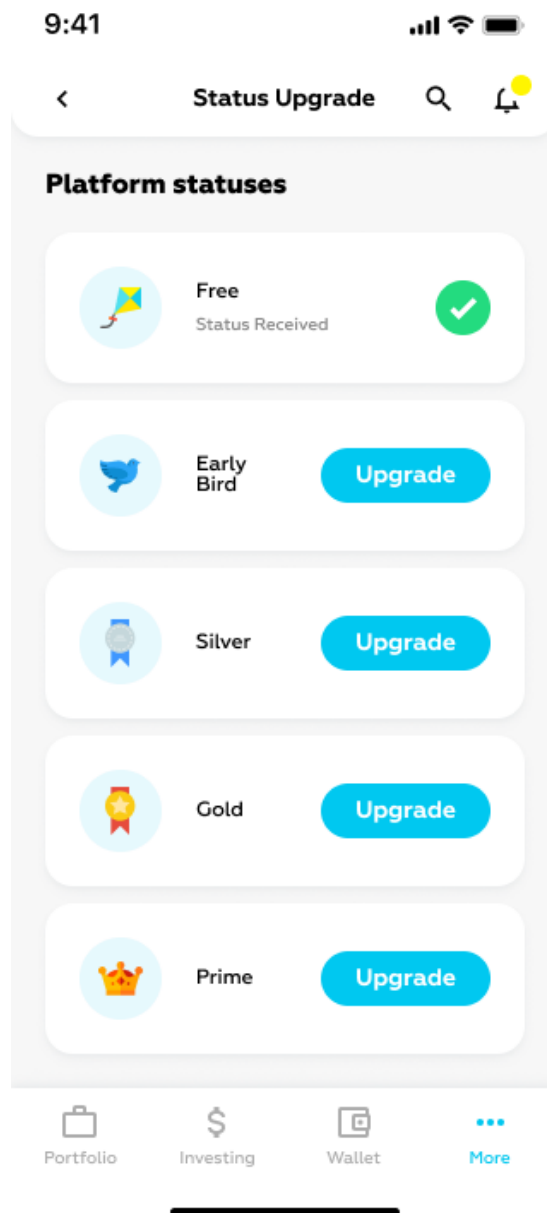

A mobile app authorization screen with a light gray background. At the top, the word "Authorization" is centered in a large, black, sans-serif font. Below it, there are two input fields. The first is labeled "E-mail:" and the second is labeled "Password:". Both labels are in a smaller, black, sans-serif font. Each label is followed by a horizontal line representing the input field. Below the input fields, there is a large, yellow, rounded rectangular button with the word "Login" centered in a black, sans-serif font. Below the button, the word "Registration" is centered in a smaller, black, sans-serif font. At the very bottom of the screen, there is a black horizontal bar with a white line in the center, representing a mobile home indicator.

- A section where the user can enter the code, that he received during IEO Roobee, in order to obtain status on the platform was added.

The image shows a mobile application interface. At the top, there is a blue header bar with the time '9:41' on the left and signal, Wi-Fi, and battery icons on the right. Below the header, the text 'Enter promo code here:' is centered. Underneath this text is a white input field with a blue padlock icon on the left and the placeholder text 'XXXX - XXXX'. Below the input field is a large, rounded yellow button with the text 'Activate code' in black.

- The section with statuses has been completed.

- Now all statuses are displayed correctly
- The agility of the application was improved
- Bug fixes and testing
- Other minor amendments.
